

Tenac HC-series : Bridge between Homopolymer and Copolymer

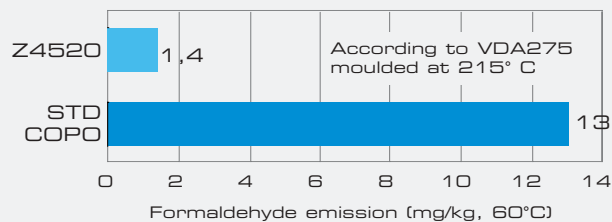

Tenac Z-series: the Low(est) Formaldehyde Emissions

Includes a powerful formaldehyde catcher

Absorbs and neutralises free formaldehyde

- Can reduce formaldehyde emissions by 90%
- Less impact of the moulding condition on emissions
- Improved heat ageing
- No impact on moulding conditions
- No deterioration of mechanical properties

Tenac Low Friction Grades: Selection guide table

FRICION AGAINST	ENDURANCE	DIMENSION
Metal	LT802	LT804
	LT350	LM511
	LV450	LD755
Crystalline resins POM,PA,PP,...	LV450	LA543
		LZ750
		LD755
Non-crystalline resins PC,ABS,PS,mPPE,...	LV450	LM511
		LZ750
		LD755
